

Watching Over You - Ian Luther

I didn't mean to leave you alone  
I always meant to come back home  
I didn't mean to make you cry  
And disappear without saying goodbye  
But I'll be watching over you

I didn't mean to break your heart  
I never meant for us to be apart  
I didn't mean to not be around  
And turn your whole life upside down  
But I'll be watching over you

Baby baby don't you cry for me no more  
Don't you feel so sad and blue  
Just remember when you're feeling all alone  
I'm always there beside you  
Watching over you

I see you every moment of every single day  
I'll be your guardian angel  
To help you on your way  
I see you close your eyes  
When you go to sleep at night  
I'll be there in your dreams  
To make it all alright  
I'll be watching over you

Baby baby don't you cry for me no more  
Don't you feel so sad and blue  
Just remember when you're feeling all alone  
I'm always there beside you  
Watching over you

I didn't mean to leave you alone  
I always meant to come back home  
I didn't mean to make you cry  
And disappear without saying goodbye  
But I'll be watching over you  
I'll be watching over you  
I'll be watching over you  
I'll be watching over you  
I'll be watching over you  
I'll be watching over you  
I'll be watching over you
